

Changes: Voth, Caprettini & Trew, “Fighting for Growth” — March 6, 2026 (old) vs June 5, 2026 (new)

Page (old)	Points	Old	New
1	Draft date	March 6, 2026	June 5, 2026
7	Agricultural shares wording	“these shares were equal at 31%”	“output and employment shares in agriculture were both equal to 31%”
11	Hot-press sample window	newspapers “published in 1785–1820”	newspapers “published in 1790–1820”
12	Recruits wording	“origins of these over 45,000 recruits”	“origins of over 45,000 of these recruits”
14	Pre-war wage interpretation (major)	“it is not visible prior to the outbreak of war with France (col. 5 and 6).”	“high recruitment areas had prior of the war lower wages (col. 5 and 6), suggesting that wartime recruitment significantly reshaped labor markets.”
14	OLS equation notation	$M_i = \alpha_r + \beta R_i + \gamma X_i' + u_i$	$M_i = \alpha_r + \beta R_i + X_i' \gamma + u_i$
27	Reverse-causation placebo (Lloyd's List)	“have the wrong sign, are close to zero and not significant”	“have sometimes the wrong sign, are close to zero and never significant”
28	Spatial-robustness p-values (App. Table A.22)	RF/IV p = 0.007 and 0.023; first stage 0.086	RF/IV p = 0.009 and 0.024; first stage 0.090
28	New robustness check added	(absent)	“Fourth, we follow Conley and Kelly (2025) and include in all regressions a B-spline [in coordinates]”
37	RASE productivity table — added control	“Season FEs”	“Wheat price & season FEs”
37	RASE productivity table — re-estimated	e.g. 0.118* (F = 1.325 / 1.430)	e.g. 0.147** (F = 1.787 / 1.358)
41	RASE productivity units (table note)	“sheaves per worker per hour”	“sheaves per worker per minute”
39, 43	Appendix table values updated	e.g. p39 blank cell “.”; p43 “1.4 1.6 ...”	e.g. p39 “-0.941”; p43 “1.9 2.1 ...”
